Each CRC is a service point of entry for caregiving families. Combined, the CRCs serve every county in California. Each center tailors its services to its geographic area, and each offers family caregivers a suite of core programs which may include the following:

**Specialized Information**
Advice and assistance on caregiving issues and community resources—including CareNav™, a dynamic online service that delivers specialized information to family caregivers.

**Uniform Caregiver Assessment**
Standardized assessment tools to help define and explore caregiving needs, interventions, and services.

**Family Consultation & Care Navigation**
Individual consultations (in-person/phone) with trained staff to provide ongoing emotional support, connect caregivers with community resources, and increase understanding about care options.

**Respite Care**
Financial assistance for brief substitute care (in-home support, adult day care services, short-term/weekend care, etc.) to assist families caring at home for an adult with a disabling condition.

**Short-Term Counseling**
Individual sessions with licensed counselors, to offer emotional support and help with the strain of the caregiving role.

**Support Groups**
Monthly meetings in a supportive atmosphere where caregivers share experiences and exchange ideas to ease the stress of caregiving.

**Caregiver Training**
Individually tailored classes for caregivers on stress management, self-care, dementia, and other topics.

**Legal & Financial Consultation**
Personal consultations with experienced elder law attorneys who are contracted to provide guidance on powers of attorney, estate and financial planning, conservatorships, and other complex matters.

**Education**
Workshops for caregivers, community members, and professionals to help caregivers manage day-to-day care, plan for future legal/financial needs, promote well-being, and access available resources.

---

The Association of California Caregiver Resource Centers (ACCRC) represents the 11 regional nonprofit Caregiver Resource Centers (CRCs) that serve the estimated 5.5 million unpaid family and friend caregivers across the state. For more information, contact crcassoc@gmail.com.

There is support wherever you are - you do not have to go on this caregiver journey alone.

Connect with your local Caregiver Resource Center today!

www.caregivercalifornia.org
Founded in 1984, the California Caregiver Resource Centers are a network of 11 centers throughout California which serve family caregivers who are providing support for someone affected by chronic and debilitating health conditions including dementia, Alzheimer’s disease, cerebrovascular diseases (such as stroke or aneurysms), degenerative diseases such as Parkinson’s, Huntington’s and multiple sclerosis, or traumatic brain injury (TBI), among many others.

Caring for a loved one with a cognitive disorder or another disabling condition forever changes the lives of families and caregivers. There can be devastating effects on those providing long-term care: financial pressures, legal quandaries, health problems, and emotional turmoil.

Fortunately, the California Caregiver Resource Centers offer FREE support throughout the state, serving thousands of families and caregivers across income categories. Every California resident has access to a CRC in their area. The CRCs are united by shared values emphasizing choice, collaboration, innovation, quality, participation, respect & diversity.
